Your Talent & Gallo | A Perfect Pairing

WINEGROWING RESEARCH DESCRIPTION

Help build and deliver reports and applications that enhance and accelerate R & D! Our Winegrowing Research Data Analytics team is looking for great talent (like you) to fill a data analyst harvest (July – December) internship position.

You will support critical harvest efforts as well as complete and present a project to our Winegrowing Leadership team. The projects that you will work on will be determined by business need along with your skills and interest. Develop your data analytics skills through working on our diverse project portfolio with cross-functional groups such as Viticulture, Chemistry, Enology, Micro and Systems Biology, and Winemaking.

WHAT YOU WILL DO

- Understand and document inputs and outputs of data to support continuous development.
- Excited about driving insights and telling a story about data by developing compelling dashboards.
- Work with cross-functional teams to gather report/application requirements and feedback.
- Mining data to identify patterns for predictive insights.
- Model structured and unstructured data to participate in the development of machine learning and other advanced analytical models.

WHAT YOU WILL NEED

- High school diploma or State-issued Equivalency certificate.
- Currently enrolled at a college or university and working towards OR have obtained a Bachelor's degree in Computer Science, Management Information Systems, Economics, Mathematics, Statistics, Data Science, Data Analytics, Informatics, Marketing Research, Applied/Quantitative Psychology or School of Engineering.
- Experience defining problems, collecting data, establishing facts, and drawing valid conclusions.
- Capable of working with data in Python, VBA and SQL.
- Strong written, verbal, and analytical skills
- The position requires availability to work evenings, weekends and holidays when necessary.

Cheers!

E&J Gallo Winery

WHAT WILL SET YOU APART

- Junior or Senior class standing at a college or university and working towards a Bachelor's degree or Master's degree in Computer Science, Management Information Systems, Economics, Mathematics, Statistics, Data Science, Data Analytics, Informatics, Marketing Research, Applied/Quantitative Psychology or School of Engineering.
- Previous experience in natural sciences, fermentation, viticulture, or winemaking.
- Knowledge or experience working with BI Tools, like Tableau.
- Excellent organizational and team skills and experience managing multiple assignments.
- Previous experience working in a collaborative environment.

Gallo does not sponsor for employment based visas for this position now or in the future.

How to Apply
