

RESEARCH SEMINAR

Professor Nianzhi Jiao
Xiamen University

The Ocean Microbial Carbon Pump

INFO

ALS 4001

Wednesday Jan 15th

11:00am-12:00pm

Professor Jiao is from the Carbon Neutral Innovation Research Center (CNIRC), Xiamen University, China. He is the Director of UN Ocean Negative Carbon Emissions program (ONCE). Dr. Jiao will speak about the ocean Microbial Carbon Pump (MCP), a natural system that has sequestered amounts of carbon that are approximately equivalent to current total atmospheric CO₂. Dr. Jiao will also discuss Global ONCE and its role in education, training and research in relation to marine carbon cycle and global warming mitigation.
